EDUCATION

Dronacharya Group of Institutions, Greater Noida

2022 – 2026

B.Tech - Computer Science and Engineering - CGPA - 8.23

Greater Noida, Uttar Pradesh

EXPERIENCE

SmartFRS Solutions PVT LTD 

February 2026 - July 2026

Role - Software Tools and Platform Engineering Intern

On-site

- Worked on backend development using Java and Spring Boot to build scalable and efficient applications.
- Designed and developed RESTful APIs for seamless backend–frontend communication.
- Implemented reactive programming using Spring WebFlux for handling asynchronous and high-concurrency scenarios.
- Created and maintained API reference documentation, BRDs, and technical documentation to support Frontend and QA teams.
- Contributed to platform/tool development for system workflows and backend services.
- Collaborated with Frontend and QA teams by providing API specifications, system workflows, and technical guidance for smooth feature implementation.
- Integrated backend services with MongoDB for efficient data storage and retrieval.

IBM 

August 2025 - September 2025

Role - Web Development Intern

Virtual/PBEL

- Designed and developed a full-stack E-Commerce web application using MongoDB, Express.js, React.js, and Node.js.
- Implemented user authentication authorization (JWT, bcrypt) for secure login/signup.
- Designed REST APIs, integrated MongoDB for efficient data storage, and connected frontend with backend for seamless user experience.

PROJECTS

Smart Inventory Management System  | JAVA, Hibernate, Swing, MySQL

Nov 2024

- **Comprehensive Stock Management:** Developed a Java-based system using Hibernate and MySQL to perform CRUD operations, track stock levels, and manage product history efficiently.
- **Real-time Notifications:** Integrated email and SMS APIs to notify users instantly about low stock, expired products, and inventory updates, ensuring proactive management.
- **User-friendly Interface:** Designed a responsive Swing-based GUI with secure user authentication and seamless navigation, enhancing the overall user experience.

Parking Lot Management System  | JAVA, Hibernate, JDBC

Sep 2023

- **Automated Slot Allocation:** Developed a Java-based system using MySQL to manage real-time vehicle check-ins, automated slot assignments, and check-outs efficiently.
- **Payment Integration:** Implemented secure payment processing for hourly, daily, and monthly parking fees, with detailed billing and transaction history.
- **Admin and User Interfaces:** Designed intuitive Swing-based dashboards for both administrators and customers, featuring vehicle tracking, slot status updates, and user authentication.

TECHNICAL SKILLS

Backend: JAVA(Core, J2EE), SpringBoot, MySQL, Redis, Firebase, Rest API

Frontend: HTML, CSS, Javascript, React

Languages: JAVA, JavaScript, SQL, C

Technologies/Frameworks: Spring WebFlux, Hibernate(ORM tool), Apache Tomcat(Web server), MQTT, HTML, CSS, Javascript, React, MongoDB, ExpressJS, NodeJS, Restful, Swagger, Postman

Testing: Swagger UI, Postman, Bruno

Developer Tools: Eclipse, VS Code, IntelliJ, Git, Github, Postman, Firebase

CERTIFICATIONS

- Reactive Applications with Spring WebFlux Framework – Udemy (April 2026)
- NPTEL (12 week) certification in - Programming in JAVA
- AWS Academy Cloud Foundation
- Cisco Networking Academy®- Cyber Security Essentials
- IBM Internship Certificate – Web Development
- Coursera (Johns Hopkins University) – HTML, CSS, and JavaScript for Web Developers

EXTRACURRICULAR

- Most Active CSI Student Member - 4th CSI IT Excellence Awards 2024
- Secured 1st Rank in Class 10 (School + Area Level).
- Secured 3rd position in Hackathon 2024 at Dronacharya Group of Institutions
- Selected as Microsoft Learn Student Ambassador – Representing and contributing to the global student tech community.
